

COLOR CHART

To create a perfectly completed ambience, color is the way to go. The Zaneen Prolight color palette offers 25 specific colors and infinite color combinations, from timeless classic style through natural organic to fresh, vibrant and rich colors in bright and opulent hues. Warm colors create a comfortable, communicative atmosphere, while cold colors tend to appear more plain and functional. Even the combination with white or black influences the colors – white weakens and black strengthens a color in its intensity.

The manifold possibilities of combinations are illustrated in 4 subsequent color themes (organic, vibrant, pure, floral), which invite to be creative and motivate to innovate. Emphasizing, increasing contrast or creating a harmonious whole: Zaneen allows for new ways of creating atmosphere.

Zaneen Prolight knows color like no other!
