Digital: Not all screens are calibrated the same, and therefore, colors will appear differently between devices.

Physical: When texture is involved, there will be variations in color, character and tone within a product family.

Gun Metal: No Gun Metal finish is alike. It combines a mixture of transparent and black color particles.

Champagne Cream, Copper Mine, Ancient Bronze + Jazz Gold: These finishes have slight fading from specific powder coating production. Each luminaire will slightly vary.

and between product families.

ensures a highly individual effect and no luminaire being identical.
